

privi

DESK HUNG SCREEN

Privi is custom formed for every order from Hush 18mm acoustic panels. Its four flowing radial corners and clean lines form a distinctive physical barrier. With its unique proprietary integrated bracketing, Privi is in a league of its own by not having any visible brackets on the exterior side of the panel.

Privi is the perfect partner for height adjustable desks. Strong, rigid and sturdy yet lightweight thereby reducing the weight load on the motors.

Designed to suit 25mm worktops, Privi is discreetly mounted to the side of desk, hanging above and below. Privi provides multiple benefits such as creating a personal workspace combined with below desk modesty, acoustic noise reduction and a modern clean designer look. Privi is available in nine colours, with the solid colour throughout, flame retardant and contains a minimum of 60% post-consumer recycled material (PET).
